#### ACC RESIDUAL LEVIES FOR THE PERIOD 01 APRIL 2005 TO 31 MARCH 2006

Classification Unit Description	Classification Unit Number	Classification Unit Rate	Adjusted Liabe Earnings	Levy
Fishing - Finfish Trawling (including processing on board)	04130	\$1.38	\$56,732.00	\$782.90
Earners' Residual Levy		\$0.0000	\$56,732.00	\$0.00
Health and Safety in Employment Levy		\$0.05	\$56,732.00	\$28.37
2 Total 2005/06 ACC Residual Levies				\$811.27

The discount is **10% of the work-related component** of your levies for three years (legislation states that discounts can only be provided on the basis of the levy payers' workplace safety management. This is the levy that relates to your cover. If you are managing your hazards well, you should have fewer injuries and therefore receive a discount on your levy).

**Work Levy Income** - is the compensation for loss of earnings due to injury.

**Work Levy Non Income** - is the medical/rehabilitation cost work related.

Example:

Calculation of Levy: (Adjusted liabe earnings/100 x the classification unit rate)

Work Levy Income: \$56,732.00/100 x \$4.65 = \$2,638.04

Work Levy Non Income: \$18,720.00/100 x \$6.27 = \$1,173.74

Total = \$3,811.78 x 10% WSD discount

Total WSD discount = \$381.18

These levies are not included:

**Earner Levy** - cost of non work injuries

**Earners' Claims Levy** - meets the cost of the long-term claims of the ACC scheme. It covers the cost of treating and rehabilitating people who were injured in the workplace before 30 June 1999 and suffered non work injuries prior to 1992.

**Earners Residual Levy** - meets the cost of non-work injuries to earners that happened between 01 July 1992 and 30 June 1999.

**Health and Safety in Employment Levy** - Collected on behalf of Department of Labour to cover the cost of Occupational Safety and Health service.
